Maimonides medical Center

4802 10th Ave Brooklyn NY11219

To whom it may concern

My name is Louie liu. In the past thirteen years, I have worked with the Maimonides Medical Center frequently, from the hospital's care of patients to the cooperation between the hospital and the Asian community.

I can say that the Asian community is very satisfied with Maimonides' presence. President Kenneth Gibbs told me that Maimonides medical center is based on the community. It must be responsible to the community.

He has led his team to fulfill this mission, and he did it.

There are many example of that. In the difficult past two years, Maimonides has shown extraordinary responsibility. Despite the shortage of patient beds, it still delivered its best care to serve the residents of our community.

(In our community, if there is a need for medical services, the first name that comes to mind is Maimonides Medical Center)

Of course, during the COVID-19 pandemic, I represented the Asian community and directly referred many Asian institutions to donate PPE to the hospital, which fully reflects our community's recognition of Maimonides as our prime medical center.

We all can agree that the community and the hospital work seamlessly together.

A handwritten signature in black ink, appearing to be "Louie Liu".
