Dear Kenneth D. Gibbs,  
President at Maimonides Health Center

Maimonides Medical Center is a wonderful partner that provides outstanding care and important health education for the community. They are an amazing organization whose focus is on compassionate care that centers the needs of their patients and families.

We partner with Maimonides Medical Center to educate the community on health issues, and to deliver important services that enhance their quality of life and improve overall health.

Our community-based partnership would not be possible without the leadership of their amazing staff including Douglas Jablon, Executive VP of Community Relations.

We credit and applaud Maimonides Medical Center for their dedication and their tireless commitment to help the people of Brooklyn.

Sincerely yours,  
Rizy Horowitz

A handwritten signature in blue ink, appearing to read "Rizy Horowitz". The signature is written in a cursive, flowing style.
