In the name of God the most merciful, the most gracious
Dear Mr. Gibbs, Mr. Jablon,
To the Board of Maimonides Medical Center, Doctors , and employees,

I'm greatly privileged to write for you today, for a reason to tell you how much our community of Arabs and Muslims in this area of Brooklyn do appreciate and value our relationship, and we thank you for keeping the ties between us and your medical center very strong over all these years with your work to:

- 1- help manage and treat our patients with your great team of doctors and staff with their competency, and dedication
- 2- your continued sensitivity towards our and other communities issues had been always inspiring to us.
- 3- creating a place for our prayers.
- 4- the type of food you serve very similar to our Halal food, all mean so much to us.
- 5- the yearly invitation you offer means so much in helping strengthen the ties

Your great medical center has developed so much to be a world class center for the Brooklyn people. We thank you all, especially our great friends Mr. Gibbs and Mr. Jablon who stand firmly beside our's and other community's issues.

May God bless you all and bless our relationship.

Sincerely yours,

Husam Rimawi
