

Mr. Ken Gibbs,

In November of 2021 I was in a horrific car accident. Bruised and lacerated, I was admitted to Macmonides Medical Center, ER.

John, the head of trauma was extremely efficient and quickly had the situation under control.

After multiple surgeries I was transferred to the SICU and was under the supervision of Dr. Simon. His dedication and care was exemplary.

Being bed ridden for an extended period of time with the risk of bed sores, his suggestion for a costly air mattress met your approval and for this I am grateful.

I've had the most amazing and caring staff ^{THROUGHOUT} my stay and wish to Thank You!

With much appreciation,
Mrs. Nechama Miller
